## Skills

▸ Ruby / Ruby on Rails	▸ Running social media campaigns
▸ Javascript / jQuery	▸ Copy-writing
▸ HTML / CSS	▸ Print Design
▸ Bootstrap	▸ Team Player
▸ Photoshop / Illustrator	▸ Fluent Collaborator

See [my website](#) for examples of these skills in action.

## Objective

As a recent graduate of Omaha Code School, I'm seeking a job that will allow me to grow in a direction utilizing my passions for visual design, user experience, and team management. My experience prior to this working in collaborative non-traditional theatre, where I took every project from blank-slate to fully-realized experience under a deadline and by working with and leading a team of collaborators. I will bring that experience and flexibility with me into the field of software/technology. My goal is, within 5 years, to develop myself to lead a team of creative designers and developers that produces quality, inventive work.

## Experience

Ensemble Member, BlueBarn's Witching Hour; Omaha, Nebraska 2006-2014

Worked collaboratively with the ensemble to create original theatre programming, 3 shows a year. Wrote scripts, did visual design, directed and managed projects. Managed and worked collaboratively within groups of artists/creators to complete a project under budget and on deadline. Additionally served as communications director, managing social media presence and branding. Volunteer, semi-professional work.

Server / Lead Wait, Vivace; Omaha, Nebraska – 2011-2014

Worked as part of a team, managed and led a team of servers, and constantly expanded my food/beverage knowledge-base in order to provide a superior customer service experience.

Lead Wait / Bartender, Jazz; Omaha, Nebraska – 2006-2011

Worked as part of a team, managed and led a team of servers, responsible for closing the bar. Like the above but less serious and more cajun.

## Accolades

2015 Individual Artist Fellowship for Playwriting from the Nebraska Arts Council
